## Twenty-Five Dead In Chicago Race Riots

15,000 RAILWAY

OUT ON STRIKEControversy Ties Up Service  
On Elevated and  
Surface Lines.MEN WANT 77 PER CENT  
INCREASE OVER FORMER WAGENo Attempt Made By Com-  
pany To Run Cars—  
Chicago Walks.Chicago, July 23.—The worst traffic  
conditions that Chicago has faced in  
many years prevailed in the downtown  
or "loop" district today. No traffic po-  
licemen were on duty, most of them be-  
ing detailed to riot squads in the black  
belt, and trucks, motorcycle, bicycles,  
one-horse express wagons, taxi cabs and  
touring cars of various types jammed  
the crossings.Every vehicle was loaded to extreme  
capacity by persons seeking to reach  
places of employment and the side-  
walks were crowded with pedestrians  
who chose walking as the best means  
of overcoming the stoppage of surface  
and elevated railway service.Except the still passengers and  
pedestrians, drivers almost without ex-  
ception forced their vehicles through  
the crossing tangles with reckless  
abandon. Raucous automobile horns,  
tooting truck whistles and yells of  
teamsters voiced warnings to each other,  
but bore no message for the man or  
woman afoot.The streetcar railroads put extra trains  
on their suburban routes and thousands  
of extra passengers were carried. These  
people reached the outskirts of the loop  
in comfort although their numbers dis-  
commuted the morning riders of the  
regular commuters.Chicago, July 23.—Fifteen thousand  
street railway employees went on strike  
for higher wages at 4 o'clock this morn-  
ing, completely tying up the surface  
and elevated systems of the city.The companies made no attempt to  
run cars and workers depended on  
steam railways, automobiles and other  
vehicles to reach their places of busi-  
ness. Early last night heads of the  
unions and officials of the street rail-  
way companies reached an agreement  
to fix the wages of the men at 4 m. today.  
The employees demanded 85 cents an  
hour, an increase of 77 per cent over  
present wages, an eight hour day and  
time and a half for overtime.LIEUTENANT PUTS  
THE BLAME ON HIS  
HIGHER OFFICERSNew York, July 23.—Responsibility  
for cruel treatment of American sol-

was placed squarely upon the shoulders  
of Major General F. S. Strong and  
Colonel E. P. Grimstead by Lieutenant  
Frank H. (hardboiled) Smith in testi-  
mony given by him today before a sub-  
committee of the house of representa-  
tives at Governors Island.KAISER WANTS CHAPEL  
USED BY PROTESTANTSLondon, July 23.—The Berlin news-  
papers say that the former German em-  
peror has written to the British em-  
bassy asking him to preserve the Pro-  
testant chapel at Potsdam castle for Pro-  
testant services and not to convert it to  
Catholic uses.The former monarch said that it  
would be undesirable to him to have  
Roman Catholic services in the chapel,  
the chapel, into which he had put his  
whole soul and in which he prayed for

German newspaper, "Zukunft," quoting official  
sources, says that the arrangements of

forts will be made to induce the United  
States to relate to Germany.The former monarch said that it

ited supply of ice.SPECIAL TREATY  
WITH FRANCE IS  
BEFORE SENATEPresident Wilson Submitted  
It After Criticism By  
Republicans.CLAIMED TREATY BINDS U. S.  
TO HELP FRANCE IMMEDIATELYSenate Refers It To Foreign  
Relations Committee  
Without Discussion.Washington, July 23.—President Wil-  
son today transmitted to the senate  
the special treaty with France by which  
the United States pledges itself to come  
immediately to the aid of that repub-  
lic in the event of an unprovoked at-  
tack by Germany and asked for its  
early ratification "along with the treaty  
with Germany."Submission of the treaty came after  
a sharp criticism by senate Republi-  
cans who for several days had openly  
charged on the senate floor that in  
failing to present the draft of the pact  
along with the treaty of Versailles, the  
President had violated one of the ar-  
ticles of the document. The President  
did not follow his usual custom of pre-  
sents the treaty in person. He sent it  
to the capital by special messenger  
along with a message explaining its object.The Franco-American treaty is al-  
most identical with one signed by Great  
Britain and France. One difference be-  
tween the text as made public by the  
French foreign office to which atten-  
tion has been called is that the United  
States pledges itself to go "immedi-  
ately" to the assistance of France while  
Great Britain "consents" to assist that  
country.The President told the senate the pur-  
pose of the treaty was to provide as-  
sistance for France in case of unpro-  
voked aggression by Germany without  
waiting for the advice of the council of  
the League of Nations that such action  
should be taken and explained that it  
was to be a permanent arrangement, "not in-  
dependent of the League of Nations, but  
under it.""The covenant of the League of Na-  
tions," the preacher said, "provides for  
military action for the protection of its  
members only upon the advice of the  
council of the league—advice which it  
is to be presumed, only upon delibera-  
tion and acted upon by each of the  
governments of the member states only  
if its own judgment justifies such ac-  
tion."Pointing out that the treaty "shall re-  
ceive the approval of the council of the  
league," the President said it would re-  
main in force "only until upon the ap-  
plication of one of the parties to it, the  
council of the league, acting, if neces-  
sary, by a majority vote, shall agree  
that the provisions of the covenant of  
the league afford her (France) sufficient  
protection."Mr. Wilson said he was moved to sign  
the treaty by "the ties of friendship  
binding the two countries and the as-  
sistance France gave America in its  
struggle for independence. Without this  
assistance, the president said, it was

tors Tomorrow to Deal  
With High Cost of LivingColumbus, July 23.—The meeting of  
county prosecutors from all the 88  
counties of Ohio called for tomorrow  
afternoon by Attorney General Price at  
the suggestion of Governor Cox, is ex-  
pected to deal not only with food prices  
but the high cost of living generally.  
Representatives from the mining dis-  
tricts, particularly the Hocking Valley,  
will bring stories, it is said, of lack of  
work in the mines due in some in-  
stances to car shortage, but principally  
because of the hesitancy of do-  
mestic consumers to lay in their winter  
supply of coal. Practically the only  
coal mined in Ohio now is said to be for  
the lake trade and for railroad fuel.  
A representative of the Ohio mine  
owners yesterday urged a state-wide  
campaign to encourage buying of Ohio  
coal.The state utilities commission acting  
upon complaint that there has been  
stoppage in some sections and mines  
were not operating because of car short-  
age, has wired Walker D. Hines, direc-  
tor general of railroads, to supply more  
train cars. Inspectors were sent into

HUSBAND'S DEAD BODYDayton, July 23.—When she saw  
smoke pouring from her home this  
morning, Mrs. Charles Grun-  
dick, 61, of 1414 E. Charles Grun-  
dick, said she took into the house and  
found a man with a bullet wound in  
the head. She found a moldy ring  
when the body was discovered. Acting  
City Marshal W. H. Davis has been  
dead for six hours. Authorities are  
investigating a foul play theory, holding  
if the man had fired the house before  
shooting himself in a suicide attempt, it  
would have been burned down before he  
was discovered.

## LICKING LEADS IN VICTORY SHAFT RACE.

Licking county leads in the race for the \$10,000 Victory Memorial shaft to be awarded to the county selling the largest percentage of its 1919 War Savings Stamp quota during the 90 days ending September 1. The state committee's official figures show that Licking county has a substantial lead in the race, with Morrow county second and Ross county third. The \$10,000 memorial shaft to be awarded was contributed by the Barre Quarries &amp; Manufacturers' Association of Barre, Vt., as a tribute to the New England state to Ohio for her remarkable war record. All of the banks' sales throughout the county show an increasing interest in the drive. The Licking county war-work organization of 500 trained salesmen, under the leadership of Edwin C. Wright will trace a hand in the campaign August 12, 13, 14 to put Licking county "over" and win the Victory shaft. James G. Cooper, Licking county letter-carrier in the United States, is the shaft and to make Cooper a world-champion. The only thing that can prevent Cooper from winning the shaft to another county is overconfidence. Buy all of the W. S. S. you possibly can now thereby making James G. Cooper a world-champion and bringing national honor to Licking county.

WAR WORK ORGANIZATION NOW  
LINED UP FOR FINAL ACTION  
IN W. S. S. DRIVE AUG. 12-14The forces of Licking county's fa-  
mous war work organization, 500 men  
strong, are being lined up for final ac-  
tion.Chairman Wright, with the sanction  
of the staff and the executive com-  
mittee, has sent the call to the eight dis-  
trict leaders and the township chairmen  
to report for duty at Newark Masonic  
temple at 6:30 Monday evening August  
11. In turn these leaders are carrying  
the message to the men in the field so  
that the entire organization of 500 men  
will be ready for action when the word  
to "go over the top" is given.The final drive is for the sale of War  
Savings Stamps to sustain the enviable  
position this county now occupies as  
the leading county in America in W. S. S.  
sales and to make a "World Cham-  
pion" out of James G. Cooper, Licking  
county mail carrier who today has sold  
more W. S. S. than any one of the 100,  
000 letter carriers in America.The war organization goes into this  
final drive with three rewards in pros-  
pect—a tangible reward by bringing to  
Licking county the \$10,000 Victory  
shaft, a spiritual reward the sense of  
duty well done, a material reward in  
that the money invested in W. S. S.  
will every cent come back with interest  
to maintain the prosperity of the com-  
munity.Secretary of the Treasury Glass yes-  
terday announced that there will be no  
more popular government loans so that  
those wishing to invest in government  
securities need not look forward to fu-  
ture bond issues. While the govern-  
ment will continue the issue of W. S. S.  
there is to be no organized effort to  
create sales after this year.The war work organization after com-  
pleting the war survey sold \$1,418,000  
of the Third Liberty bonds, \$2,021,000  
of the Fourth Liberty bonds, \$1,658,000  
of the Victory Loan and obtained \$470,  
111. In turn these leaders are carrying  
the message to the men in the field so  
that the entire organization of 500 men  
will be ready for action when the word  
to "go over the top" is given.CONVICT OFFICERS

BY FIVE PACKERSTrade Commissions Report  
Charges Manipulation of  
Live Stock Market.Washington, July 23.—Manipulation  
of the live stock market through con-  
trol of market yards and a practical  
monopoly in the buying of live stock  
was charged against the "big five"  
packers—Swift, Armour, Morris, Cud-  
dy and Wilson—in the third section of  
the federal trade commission's report on  
the packing industry just made public.The report cited data obtained in the  
commission's investigation to show that  
the "big five" hold a majority of voting  
stock in 22 of the principal stock yards  
of the country and an interest in the  
remaining 28. It was said to be impos-  
sible to tell in the case of the latter  
yards whether they have a controlling  
interest, because of a "remarkable fi-  
nancial war" which is known as the stock  
holders' instead of the stock certificate,  
which is made out to the treasurer of  
the corporation. This device, it was  
said, might be used to completely  
control the ownership of the stock  
of the meat trade in the United  
States. Said the report: "The big five  
packing companies have more than 75  
per cent of the total. They have the  
power of the stock market and making  
money in the live stock market in such  
a way as to cause extreme unreason-  
able fluctuations in the daily prices paid

of the nation and its supply of discor-

SERIOUSLY.GENERAL STREET CAR STRIKE  
AIDED IN SPREAD OF RIOTINGBattalions of State Troops Are Mobilized in Armories  
Awaiting Call of the City—Entire Police Force En-  
gaged Trying to Quell Rioters.Chicago, July 23.—Race rioting spread  
outside the south side negro district  
today. There was serious fighting and  
shooting in the loop early in the fore-  
noon. The exclusive north side resi-  
dential district received a touch of dis-  
order.Killings continued after daylight,  
bringing the number of dead, in police  
reports, up to 25 by mid-forenoon and  
hundreds were injured. The police had  
under investigation three other reported  
killings. The list of 25 included 14  
white and 11 negroes.The street car strike seemed to aid  
the spread of race rioting which surged  
up from the south side into the loop  
on the heels of thousands walking to  
work who ordinarily ride. Streets ordi-  
narily almost deserted early in the day,  
were busy with pedestrians, mostly  
men and boys whose numbers afforded  
rich opportunities for racial quarrels.Several battalions of state troops  
were under arms in armories or parks  
awaiting possible call by the city. Mean-  
while the entire police force was dealing  
with the riots.Chicago, July 23.—Four thousand  
soldiers with full war equipment stood  
ready today to quell the race rioting  
between whites and negroes that dur-  
ing two nights of terror in the south  
side black belt and early today, cost  
the lives of at least 25 men, including  
hundreds of policemen and the injury to  
hundreds of others. Of this number 13  
were whites and nine negroes.Last night's death list totaled twenty,  
while one negro was killed early  
today upon a downtown corner and a  
street car conductor (white) was killed  
near the stock yards.A hundred thousand negroes and an  
equal number of whites either fought  
in the streets and alleys or cowered in  
their homes while shots were fired,  
mounted policemen galloped along the  
boulevards, patrol wagons dashed  
through the streets with prisoners and  
wounded, women and children scream-  
ed as men fought with cudgels, knives  
and fists.When the rioting, which started  
Sunday night with the stoning and  
drowning of a negro who had drifted  
on a raft into the water of a beach used  
by whites broke out afresh last night,  
Mayor Thompson asked Governor Low-  
den for troops. The governor who, was  
on his way to Lincoln, Nebraska, turned  
back at Burlington, Iowa, and acted  
on Governor Oglesby gave Adjutant  
General Dickinson orders to mobilize  
necessary forces.By midnight four regiments were in  
armories in the south side, but by that  
time the police had begun collecting the  
dead and injured and rounding up  
looters.The taste of blood Sunday night  
whetted the appetites of hundreds of  
adventurous persons who had long  
grieved at the rapid influx of negroes  
into the city and spread over a large territory  
formerly constituting a fine residential  
quarter of the south side. Property  
had decreased in value and whites had  
migrated to other parts of the city by  
thousands but many others had clung  
to their homes while the streets and  
looters.SALVATION ARMY

with thousands of whites and negroes.  
Both parties to the contest, enraged  
by the stories of cruelty of the other  
during Sunday night's melee, delibera-  
tely armed themselves last night and  
went out to stake their prey.In some cases, negroes in automobiles  
dashed through the streets firing at  
any whites encountered. In other  
cases whites attacked the buildings oc-  
cupied by negroes, shooting through  
windows and doors, while the inmates  
fired back from barricades. Bands of  
both races marched through the streets  
and meeting fought battle that ceased  
only when the pavement was covered  
with dead and wounded, or the mounted  
police had spurred their horses through  
the mass.Many individual fights, hand to hand  
struggles with knives and razors added  
to the casualties. Men and women were  
dragged from street cars until the com-  
pany stopped running them through the  
affected area.In one instance a band of whites  
passing in a mission on from Boulevard  
and representing the occupancy of the  
place by negroes was fired on from the  
house.As the night wore on and the bands  
of terrorists were broken up by the  
policemen, looters and incendiaries ap-  
peared. Several houses were fired, and  
one was burned. A number of stores  
were broken open and sacked.Toward daylight the less aggressive,  
having been driven to cover, worn out  
with fighting or jailed, a number of  
whites invaded the downtown  
quarter, beat negroes found on the  
street and dragged cowering porters  
from all night restaurants and hotels  
to the streets, flogging them unmercifully.Among those injured during the night  
were three members of the seventh  
regiment who were beset by negroes  
while on the way to the armory. Cor-  
poral W. T. Riggs was shot in the back;  
Charles T. Williams was shot in the  
side and J. N. Rinkus was slashed with  
a razor. Disorders spread to the north  
side of the city today where a number  
of negroes were chased and threatened.  
Very few negroes live in that section  
of the city.Manned Haynes was found proba-  
bly fatally injured, presumably by ne-  
groes. An automobile containing Ad-  
jutant General Dickinson was attacked,  
but without damage to the occupants.An exodus of negroes to the north  
and west sides began as the fighting  
was at its height. Some 50,000 more  
negroes already live in those parts of  
the city and the police took precautions  
to stop any recentment shown by whites  
at the added population of Africans.  
This hegra was stopped at daylight  
by the street car strike.A few whites were wounded in their  
looting.

# BRITAIN PLANS BIG THINGS FOR NEXT FEW YEARS

Local Innovations and Industrial and Agricultural Problems are Now Under Consideration.

(Associated Press Correspondence.) London, July 28.—The word "revolution" which foreign observers sometimes apply to the present transitional stage of British industrial and political life is not popular here. Revolution savors of bayonets and bloodshed, and the British people do not foresee nor predict that reconstruction is the current term even though general result of what is being done and agitated for may, in the opinion of other peoples, amount to an industrial revolution.

A brief summary of the changes under way should show that reconstruction in Great Britain comes roughly under two heads, the official and the unofficial. The principal projects which the government is grappling with are these:

Nationalization of the two great basic industries, coal mining and the rail ways.

Government support for all persons out of work through war conditions.

Schemes for government house building for workers, and land for the demobilized soldiers.

A colossal system of electric power plants for manufacturing.

Increased pay for everybody in the government service, which has already been granted to the navy and army, with further increases for postal and telegraph workers and the police. School teachers and other classes of public servants also are demanding increases.

The unofficial reconstruction calls for higher wages and shorter working hours for all in the organized industries. These are being obtained partly by amicable negotiations between employers and workmen, but also largely through strikes and threats of strikes, of which the salient of half a million from the cotton mills is an instance.

Proceeding simultaneously with these movements and sometimes complicated with them are political agitations which now and then reach the point of crises. The principal political issues are: Nationalization of mines, railways and other essential industries; abandonment of the old British free trade system for protection, involving the question open to endless discussion whether British commercial prosperity has been because of free trade or handicapped by it; the position of Ireland, whose present condition has come to be recognized as a millstone on the neck of the empire; and the proposal to clear off the war debt by a levy on capital.

Also there is a campaign of organized labor, backed by talk of a general strike, for the immediate abolition of conscription; withdrawal from all interference in Russian affairs, and bringing home the soldiers from Russia, India and Egypt. Anti-imperialism, the democrats call this propaganda.

## FRANKLIN GRANGE TO HONOR SOLDIERS

There will be a meeting of Franklin Grange, No. 1797, at Grange hall, Friday evening, August 1, in honor of the returned soldiers of Franklin township.

L. J. Taber, master of the Ohio State Grange, will be the guest of honor and address. All patrons are invited to attend and extend a welcome to the boys who have arrived home.

## FRED L. BROOKE HAS ATTAINED PROMINENCE

Fred L. Brooke, purchasing agent for the Chicago Varnish company, a Newark man who has made rapid advancement in the business world, is now in Washington as chairman of the naval stores committee of the National Varnish Manufacturers association to attend a hearing before the senate agricultural committee in connection with the naval store bill now pending. This bill is known as Harrison bill No. 8135. If enacted into law it will be the result of many years of labor to secure legislation standardizing rosin and turpentine under direction of the United States government department of agriculture. There is opposition from some of the operators who dislike to let go of their domination of these commodities.

**VIRGIN ISLANDS SEEK COMMERCE WITH AMERICANS**

Show Shipping Board at Washington That Port of St. Thomas Can Handle Big Steamers.

St. Thomas, Virgin Islands, July 5.—(Correspondence of the Associated Press.)—This American port is beginning to regain some of its former maritime importance, owing to the war improvements in this direction have been slow since the Virgin Islands were purchased from Denmark, but now, after considerable attention by business men of St. Thomas, American steamers are beginning to call here. This is the result of representations which have been made to Washington in behalf of the inhabitants of the islands.

The islands feel that American steamship carriers and especially the United States Navy, have overlooked the facilities of the harbor of St. Thomas for providing coal, fuel oil and other stores. While few American steamers have been calling at St. Thomas for supplies, many have called at the neighboring British islands where facilities are not considered as good as here. The price of coal is cheaper at St. Thomas than at the British islands.

To bring this matter before the shipping board and to draw all the benefits from the American people and commerce, a meeting of the inhabitants of the Virgin Islands was held here. Resolutions were adopted calling the attention of the shipping board to the

## GRANVILLE

Mr. and Mrs. E. J. Dorsey motored to Columbus Monday where they took their trip for Gloucester, Mass., the home of their son, Dr. H. G. Dorsey.

Mrs. Helen Hunt has sold her home in Park Drive to Mrs. Margaret Doane, a daughter of Dr. W. H. Doane of Cincinnati, former trustee of Denison, who comes to Granville already interested in the village and in the schools. Mrs. Hunt expects to give possession as soon as she can pack her household goods for railroad transportation. In this she will be assisted by her daughters, Misses Mildred and Mary and her son, Rev. Horace Hunt of Philadelphia, who will arrive in Granville with Mrs. Hunt some time tomorrow.

Work is progressing on the new home of George Stuart, the dealer, now being erected in Centerville street, on the lot adjoining that of Albert Guckert.

Mr. and Mrs. L. A. Austin, who have sold the house in South Prospect street, which is now occupied by Dr. Hesick, expects to give possession the first of September when they will move into the house they own next door in Elm street.

Extensive alterations are being made on the large frame house in South Cherry street, formerly the property of Mrs. A. K. Follett, and purchased by H. D. Ashbrook.

Mrs. Theodore Johnson left this morning for a brief visit with relatives and friends in Mt. Vernon, expecting to return Thursday.

Tickets for the Baptist Assembly and Chautauque are now being sold and residents of the village will do well to purchase in advance. The event promises to be one of the most interesting and successful yet held, and the attractions offered on the Chautauque course unrivaled for real merit.

Mr. and Mrs. Daniel Hart, Mr. and Mrs. Frank Young of Columbus were Sunday guests of Mr. and Mrs. William Showman at the farm on North street.

Miss Marie Wertz of Shelby is visiting Mrs. Showman for a fortnight.

Dr. J. W. Rohrer returned Monday evening from Dayton where he motored for a week-end visit. He was accompanied on the return trip by Mrs. Rohrer and the three daughters who had spent the past month at the home of her mother, Mrs. Katharine Spencer. Several people motored to Columbus yesterday and attended the Circuit races at the Columbus Driving Park.

Benton Black of Columbus is in Granville visiting relatives for a few days. Mr. and Mrs. Fred Buxton, Mrs. Minnie Buxton Keen.

A great deal of delighted comment is heard among those who attended the Grafton Lapp wedding in the Baptist church Saturday evening, concerning the exquisite organ program of half an hour's duration preceding the ceremony, which was given by Miss Bess Hagmeier of Newark. Both the selections and the interpretation were of a high order of musical merit, as were the wedding marches and the soft-breathing of the organ through the entire service.

Kerenth Ullman has gone to Dayton where he will visit William Huffman and other college friends.

## COFFEE AS A FLAVOR

Have you paused to think what a difference national prohibition will make in the family kitchen? Wines and cordials have long served as a standard flavoring for various delicate desserts which appeal particularly to men.

As a substitute let's consider coffee. Men almost without exception are fond of coffee and the average household bill of fare is planned with a view of the likes and dislikes of the lords of creation.

But here a word of warning: To get the best results in the use of coffee flavoring it should be prepared just as carefully as you brew your coffee for the morning or afternoon beverage.

Now Americans know the possibilities of this aromatic berry as a flavor. Our French neighbors across the sea consider coffee as a flavor par excellence, for desserts and confections. To produce a superior coffee flavor in these articles of diet, study should be made of the best method of extracting the desirable qualities from the bean, for the predominating flavor obtained in the finished product will depend upon the method employed in the decoction.

There is an erroneous notion that the long boiling of coffee extracts more of the strength and color, and is therefore more economical; but strength and color thus gained are obtained at the expense of flavor and wholesomeness.

As one authority puts it: "The strength and flavor of roasted coffee is ground out, not boiled out." Coffee does not reach the consumer in the raw state but "cooked." It has been roasted at least 20 minutes.

The proportion of coffee to the amount of water used will, of course, determine the strength of the decoction. As tastes differ greatly, no rules of measurement can be given. The briefest contact of the coffee and boiling water is enough. Continued "stewing" brings out undesirable flavors.

The recipes given below have been thoroughly tested:

### Coffee Caramel Parfait

1 cup milk  
3 tablespoons ground coffee  
1 cup sugar  
Yolks 2 eggs  
1-8 teaspoon salt  
3 cups cream  
1 teaspoon vanilla  
Scald milk with coffee in a double boiler and add one-half the sugar that has been caramelized, then add yolks of eggs mixed with remaining sugar and salt. Cook until mixture thickens, stirring constantly, and add one cup thin cream, and vanilla. Pack in one-half pound baking powder boxes, filling boxes to overflowing. Adjust covers, pack in salt and ice, using equal parts, and let stand two hours. Freeze using three parts finely crushed ice to one part rock salt. Remove from molds to cold platter and roll in blanched almonds cut in thin slices, and delicately browned in moderate oven.

### Coffee Mousse

1 cup strong coffee  
1 quart cream

## GERMAN BOOK ON ARMENIAN MASSACRE

Berlin, July 29.—What is described as the "truth about the Armenian massacre," is revealed to the German public by the Tageblatt which prints extracts from a book based upon diplomatic documents which the foreign ministry commissioned Johann Lepsius to write.

The writer shows that the Turkish committee of union and progress deliberately decided to realize national ideas by assimilating or destroying the Armenians who in Turkey number about 1,850,000. He describes the arrest and massacre of 600 Armenian leaders in April, 1915, and how the previous so-called Armenian uprising was provoked as a pretext for young Turk schemes. Lepsius repudiates the charge that German officials incited the Turks to commit their, saying the German embassy was impotent.

Theodor Wolff, editor-in-chief of the Tageblatt, in connection with the book, refers to the deportation of Belgian unemployed saying that of 55,000 who were deported and treated as slaves, 1500 perished in two months.

—make tractor operation efficient and economical

## TESTED TRACTOR FUELS

Red Crown Gasoline

Rayolight Oil

is clean, powerful and quick fire. Puts brutal force behind the pistons in all weathers. Costs no more than inferior mixtures. Asures added power at the least opening of the throttle. Uniform whatever you try it.

gave known burning tractors the same steady flow of dependable power that gas tractors get with Red Crown Gasoline. It's clean, uniform and quick burning. Leaves a minimum of carbon deposit in the cylinders.

## WEAR REDUCING TRACTOR OILS

Tractor Gas Engine Oil

Standard Gas Engine Oil

Developed by our experts for lubricating tractor engine. Stands the extra high cylinder heat without breaking down and running thin. Keeps compression tight. Keeps engine wear down.

Manufactured to exactly meet the requirements of stationary or portable engines operating on either gas or kerosene. A complete guarantee with the abundant power and minimum wear.

Telephone Service.

WIDE USE OF THE TELEPHONE.

The rural telephone lines of this company are a great factor in the social and business life of Newark. On each week-day approximately 3,000 telephone messages are sent over the lines between Newark subscribers and subscribers in the country. This volume shows how much the people in the country depend upon the telephone to transact business with Newark merchants and to talk over social and family affairs with Newark people. Isn't it a good thing both for the people in the country and the merchants and people in the city that they have an instrument of such tremendous service, one that does so much for the business life as well as the social life of many thousands of widely separated people? This is the service that the city officials of Newark do not hesitate to tear down to establish a legal technicality.

COAL CATEGORY

"Nation faces critical coal shortage," says United States government. The government estimates a shortage of at least 68 million tons for the present year. Thousands of miners have gone back to Europe. This labor cannot be replaced as there is already a labor shortage. Somebody is going without fuel this winter. Will it be you?

Do not think me an alarmist. These are not my figures, they are the official figures of the geological survey. I have a few cars of cement. I have a few cars of choice lump and run-of-mine left. First come, first served. Your government has warned you. August or autumn may be too late. I advise you to get it now while the getting is good—and get it from CHARLES MEEK, The Square Deal Coal Dealer, Auto Phone 7034.

CAPTAIN USED PICK TO CAPTURE FOES

Capt. Samuel Woodhill.

Capt. Samuel Woodhill of Kentucky, an officer in the U. S. regular army, is credited with capturing, single handed, two German machine gun nests with his revolver and a third with a pick, when his ammunition gave out. He killed thirteen machine gunners and captured three in that action. He has been awarded the Congressional Medal of Honor, the Croix de Guerre and the Legion of Honor. He was with the Fifth division in France. He recently joined his wife at Fort Thomas, Kentucky.

Potatoes: old, \$1 per 100 pounds sacked, east shore, 57.50 to 7.75 per three bushel barrels; do slat barrels, \$6.50.

Wall Street.  
New York, July 29.—Following its uncertain course of the previous session trading on the stock exchange today began with a number of variable price changes in which gains exceeded declines. Dealings and little of their recent breadth or vigor, however, and suggested increased caution by professional interests. Stocks, equipments, shipments and tobacco represented the stronger issues with a continuance of yesterday's advance in obscure specialties. Stutz Motor and Mexican Petroleum reflected moderate selling pressure.

Trading became active later but the movement was almost entirely down grade. Reactions of 1 to 5 points occurred among motors, oils, steels, equipments and shipments. Investment rails also easing under pressure. United Fruit was among the few striking exceptions advancing 5 points.  
Montana motor and several specialties under real control were carried higher before the reversal became general. U. S. Steel which broke 2 points, was the object of special attention because of this afternoon quarterly meeting of the board. Call money opened at 6 to 6 1/2 per cent.

Chicago Grain Market.  
Chicago, July 29.—Although on account of drought and heat, the corn market opened firm today, sentiment later became bearish. Initial prices, which came from unchanged figures to 1 1/2 to 1 3/4, were followed by a reaction all around to slightly below yesterday's finish.  
Oats were weakened by the action of corn. After opening 3 1/2 to 1 1/2 advance, including \$1 1/2 to \$1 1/2 to \$1 1/2 to \$1 1/2, a little then under went a moderate sag.  
Provisions were nearly listless owing to the fact that packing house quotations had been lowered by a sharp drop in the price of the car strike and hogs.

To Polish Shoes.  
The Englishman's shoes, or "boots," are the best looking seen on the feet of any race. The reason for this is that the Englishman puts trees in his shoes, which are polished with the leather then smoothed out. The softening polish, if applied while the shoe is on the foot, as is usual in America, creases the leather into the shape of the foot and the shoe loses its smooth effect. Trees, which add to the long life of shoes, are inexpensive and should be put in the shoes every night. If you polish your own shoes, try polishing them when on trees. You will be pleased with the result.

Famous Welshman.  
One of the famous men born in Wales was Robert Recorde, who first saw the light of day in Tenby about 1510. According to "Enwagion Cymru" he was the first writer on arithmetic in English, the first on geometry, the first person who introduced the knowledge of algebra into England, the first writer on astronomy in English, the first man in the country to adopt the Copernican system, the inventor of the present method of extracting the square root and the inventor of the sign of equality now adopted by the civilized world. There is a memorial to him in Tenby church.

An English invention camera resembles a short telescope and takes pictures at right angles to its user's line of vision without their subjects knowing.

### AMUSEMENTS

#### AUDITORIUM

Wm. Farnum.

"The Lone Star Ranger" which opened yesterday at the Auditorium theatre, with William Farnum in the title role, presents that fine actor again in one of his stirring, virile, outdoor portrayals, as the Texas Ranger of Zane Grey's well-known novel.

The William Fox star fairly outdid the expectations of his most ardent admirers, as a range rider of former Texas days who feared no man and boldly brought to justice a vicious band of cattle outlaws.

Dramatically "The Lone Star Ranger" is all that can be desired, with the additional merit of some wonderful scenery. The picture was directed by J. Gordon Edwards. It is seen tonight for the last time at the Auditorium. This is the last Standard picture to be shown in Newark until September 1.

Constance Talmadge.

The many, many friends of Constance Talmadge, clever Select Picture star, will be glad to know that she is positively to be seen at the Auditorium for three days beginning tomorrow afternoon.

This feature was billed for screening last week, but through some unforeseen reason did not reach Newark, but will surely come tomorrow.

Miss Talmadge has presented on the screen by the Select Picture Corp. in a long line of comedy successes and we really believe that all of them have no

lighted hundreds here in Newark and elsewhere and "Romance and Arabella" is an adaptation from the play of the same name and by no means the least of her many hits. The cast is good and Harrisford is her leading man. Mr. Ford is too well known to movie fans to say much about and others include Gertrude Chase, Monte Film, Arthur Carey, Antrim Short, James Neil and others.

Romance is the theme and during the action of the play Miss Talmadge changes lovers as fast as she does her clothes. The picture is clean and well produced and it should please all.

The Spiffire of Seville.

Especially the crimson-haired, somber-hooded monk of Russia, east yearning eyes on Mlle. Helda Nova, the star of "The Spiffire of Seville," which comes to the Auditorium theatre Sunday, when the little girl journeyed from her home in Odessa to dance before the Czar. Helda Nova was born in Odessa and was educated in a convent in Paris. When 18, Eversham was a glistering gem in the hands of the Black Empress, Mlle. Helda Nova danced her way into the hearts of the nobility at court functions. When the scourge of Bolshevism swept over the short-lived and ruled across the cities like a pestilence, Helda Nova turned with longing eyes toward America and booked passage for New York. Broadway, quite used to sensations, set up and gasped when she appeared in Russian

### Constipation Results When Hot Weather Stops Exercise

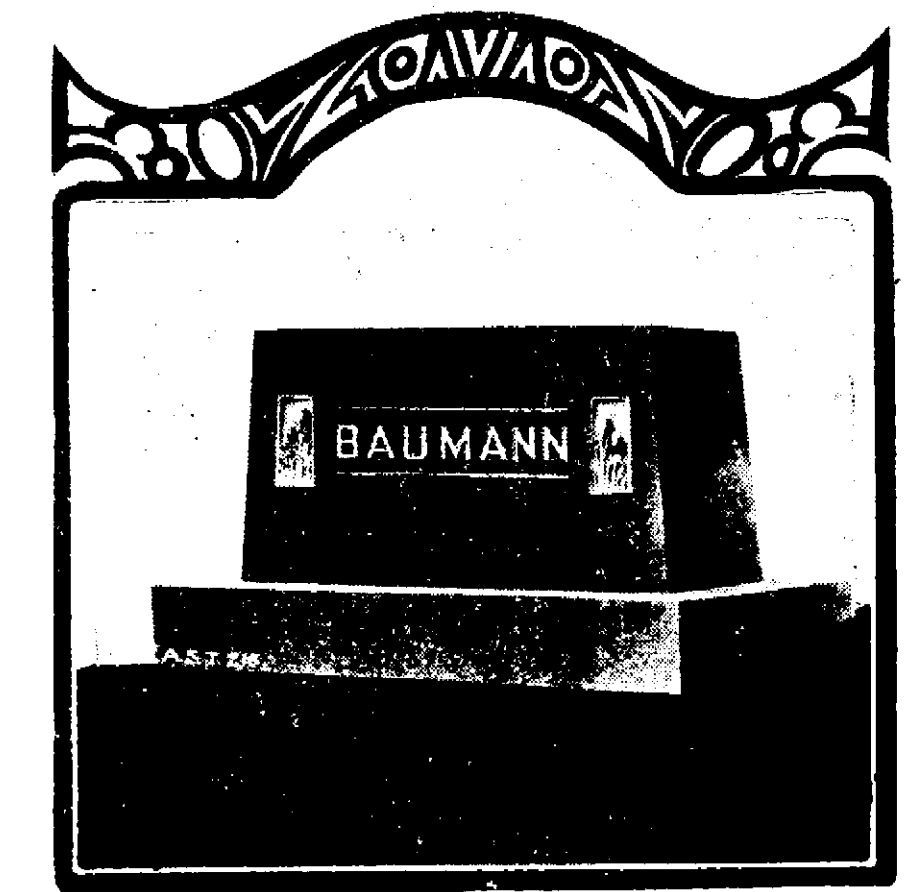

WHEN the system has become accustomed to a certain daily routine of exercise and food, health is quick to suffer if that routine is interfered with. The bowels are first to notice the change.

Different water is enough to constipate. Changes of food when traveling, much sitting by those accustomed to long walks will do it. It is especially true that when elderly people change their routine they quickly become constipated. Yet elderly people should be particularly careful to keep their bowels open, especially during the hot months.

A better remedy for the purpose cannot be found on a druggist's shelf than Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin which trains the stomach-muscles to do their work naturally so that medicines can be dispensed with. Only a small dose is needed, and unlike harsh physics and cathartics, it acts gently and without griping.

A bottle of Syrup Pepsin can be bought at any drug store for 50c and \$1, the latter the family size, or a free trial bottle will be sent on receipt of your address to Dr. W. E. Caldwell, 480 Washington St., Monticello, Ill.

dances at the gathering places of Gotham. Then the call of the silent drama disturbed her placidity. After several appearances in successful photoplays Universal recognized her dramatic worth and cast about for a suitable starring vehicle. This was discovered in "The Spiffire of Seville," a play of the Spanish mountains and the outlaw bands that had a rendezvous there.

Peck's Bad Boy.

Some of the new 1919 song hits to be introduced at the Auditorium next Saturday by the "Peck's Bad Boy Co." are "Stay It Again," "When You See Another Sweetie Hangin' Around," "They Go Simply Wild Over Me," "If I knew Ireland was Free," "Hearts," "What do you mean by Lovin' somebody else when you belong to me," "I Want a Rainbow in the Skies," "Stop

Your Stuttering Jimmy. "I Want a Doll," "Mummy O' Mine," "You're the Baby for Me," etc. Thoroughly up-to-date "Peck's Bad Boy" will give two performances at the Auditorium next Saturday. Seats go on sale next Thursday and it is predicted that this popular musical play will duplicate former records here, when two capacity houses greeted the organization as Mr. Denner has opened in Newark for the past three seasons, and has always turned many away.

### A Man of Honor.

Harold Lockwood, a noted Metro star, who dies during the Big last fall was working a special feature "A Man of Honor" which was finished just before his most untimely death. This feature will positively be seen at the Auditorium next Monday. "A Man of Honor" is a romantic drama and one that gave this actor a great scope for his acting abilities.

### The Better Wife.

Clara Kimball Young, whose picture "The Better Wife" is now showing in Cincinnati at the Lyric theatre, will come to Newark next week, showing at the Auditorium theatre.

### ALHAMBRA.

Peggy Hyland Likes Snobs.

"I like snobs," says Peggy Hyland. "They are one harmless species of reptile."

"Some folks, I know, abhor them but the snobs are not to be blamed for that. In fact, as Thackeray has reminded us, criticizing a snob may be one way of confessing snobishness. "Snobs are a good deal like the froth on beer—not to be taken seriously. To complain of them, or to deride them is to confess abnormal development of the bump of humor."

"The greatest and original authority on the subject tells us that 'first the world was made; then, as a matter of course, snobs.' But the atmosphere on

ALICE BRADY  
"THE BETTER HALF"

which they entered was there before them, even before the world was made perhaps.

"Pretender is the best synonym I know for snob. And why, I beg of you, should we begrudge anyone the privilege of pretence? The world is crisscrossed with too much realism too much truth—sayways. Hence fiction and the drama—poetry and the life man's imagination—motion pictures—me!"

"If you do not agree now, you will, I am certain, after you have seen the snobs about whom General Earl McCutcheon wrote in 'Cowardice Court.' Wm. Fox has dramatized Mr. McCutcheon's book and has cast me in a snob-surrounded role. As an actress I look snobishness seriously, and the misery is well, see 'Cowardice Court' Wednesday at the Alhambra."

"Castles in the Air."

Miss Alison, Metro star will be seen at the Alhambra Sunday in an adaptation of a Saturday Evening Post story by Kate Jordan, "Castles in the Air." In the cast with the star will be seen Ben Wilson, Clarence Burton, Walter L. Percival, Irene Rich, "Mother" Anderson, Viola Dablin, Ruth Maurice and others.

will heal it quickly

The discomfort of heating and/or air conditioning upon one's complexion, and of realizing that one's skin is unsightly, can be prevented by Resinol. Resinol, which not only takes a skin, but protects it healthily. Alleviates itching, redness, eruptions, excessive dryness, or excess of the skin, and enables one to have a complexion on the subject of a permanent instead of unfavorable comment.

### LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or food counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

**First Division is Given Rhine Duty**  
Washington, July 29.—The "permanent" American force to be retained on the Rhine will be made up of units of the first division, which was the first divisional unit of the American army to reach France. This was made known today in a cablegram to the war department from General Pershing, which said that all of the division except units to be retained in Germany would begin moving to a base port, on August 15, in preparation for its return home.

**LIVE STOCK AND PROVISION PRICES TUMBLE TODAY.**  
Chicago, July 29.—Semi-paralysis of trade in livestock and provisions developed today as a direct consequence of the car strike and the race riots. Owing to labor shortage at the stock yards, the packing house demand for live stock was greatly reduced. On many droves of hogs, not a single bid was received. In turn the provisions market on the board of trade was more nearly at a halt than has often been the case. During the first hour, not enough business was done to establish any quotations.

**CHARLES H. CHANNELL.**  
Charles H. Channell, aged 40, died at 1 o'clock this afternoon at his home, 228 Hudson avenue. Death followed a week's illness of spinal and nervous trouble. The family recently came here from Homer. Surviving are the wife and four children, and the parents, Mr. and Mrs. Aaron Channell and one sister. Funeral arrangements have not been made.

**Our Boys and Girls**  
Most children reach a time they "show off." It is a painful period, but natural. They are self-conscious because they are just discovering themselves. With the normal child the period is transitory, and the less notice you take of it the better. During this period you must take care that instead of self-reliance the child does not develop assurance.

Philadelphia—Johnny Kilbane, the featherweight champion has a shade better of "Jockey" Fox, featherweight champion of England, in six-round bout.

**Every Day Etiquette**  
"How can I avoid two of my school friends whom I do not care for? They are always insisting upon my joining them at plays or waking?" asked Gladys. Refuse once in a while to join them on the plea that you are busy or that you are going with someone else. They will soon take the hint," replied her sister.

**Daily Care of Plants.**  
Window plants collect dust easily and so should be carefully dusted. If necessary, before watering so that they will get the benefit of the water and look really green and healthy. A palm, begonia or any woody plant may be dusted with a very soft bristle brush. The roots of plants must be thoroughly soaked. All plants do better if repotted once a year so as to allow any necessary root expansion. Ferns must often be divided to prevent crowding. No plant should be placed in a crowded position in a room either against another plant or furniture if it is to look and do well. Neither must it be set in a place where it will get even the slightest knocking, for ferns especially have delicate fronds that are sensitive to a mere touch.

**The Fast Breaker.**  
Just for the sake of giving us something to start an argument, will somebody please suggest that as it makes a baby cross to cut teeth it must make him cross-eyed to cut eye teeth.

**Lorain—Internal injuries sustained in a fall from a load of hay caused the death of Frank (Goby), aged 66, pioneer farmer of South Park.**

**FATHER GUENTHER NEW ASSISTANT**  
At St. Francis de Sales Church—Comes From Buffalo.

Rev. Father O. F. Guenther has been sent to Newark as assistant pastor at St. Francis de Sales church. Father Guenther is a graduate of the University of Niagara and was recently ordained by Bishop Turner of Buffalo. His home is in Belmont, Holmes county, Ky. Father Guenther, who has been the temporary assistant, returned to the Dominican home in Somerset.

**NEWARK BOY HURT IN FALL FROM BARN**  
Bernard Gordon, aged 11, of Newark, suffered a fracture of the right arm above the elbow, Monday afternoon, when he fell 20 feet from the haymow to the barn floor. The accident occurred while the youth was visiting with relatives in the Mattingly settlement, east of Newark. He was taken to Zanesville and taken to the office of Dr. Sutton where the fracture was reduced.

**TAKEN TO PENITENTIARY TO AWAIT EXECUTION.**  
Dayton, July 29.—William McKittick, convicted slayer of Bella Mann Green, Dayton telephone operator, was taken to the state penitentiary Monday to await execution.

**Milady's Boudoir**  
Keeping Young.  
One can keep youth in the heart with but little trouble, but it is not so easy to keep it in the flesh and bones. To keep youth in the joints one should exercise them constantly. Knees, shoulders, ankles and wrists should be supple and to keep them in this condition, one must exercise.

**First Division is Given Rhine Duty**  
Washington, July 29.—The "permanent" American force to be retained on the Rhine will be made up of units of the first division, which was the first divisional unit of the American army to reach France. This was made known today in a cablegram to the war department from General Pershing, which said that all of the division except units to be retained in Germany would begin moving to a base port, on August 15, in preparation for its return home.

**LIVE STOCK AND PROVISION PRICES TUMBLE TODAY.**  
Chicago, July 29.—Semi-paralysis of trade in livestock and provisions developed today as a direct consequence of the car strike and the race riots. Owing to labor shortage at the stock yards, the packing house demand for live stock was greatly reduced. On many droves of hogs, not a single bid was received. In turn the provisions market on the board of trade was more nearly at a halt than has often been the case. During the first hour, not enough business was done to establish any quotations.

**CHARLES H. CHANNELL.**  
Charles H. Channell, aged 40, died at 1 o'clock this afternoon at his home, 228 Hudson avenue. Death followed a week's illness of spinal and nervous trouble. The family recently came here from Homer. Surviving are the wife and four children, and the parents, Mr. and Mrs. Aaron Channell and one sister. Funeral arrangements have not been made.

**Our Boys and Girls**  
Most children reach a time they "show off." It is a painful period, but natural. They are self-conscious because they are just discovering themselves. With the normal child the period is transitory, and the less notice you take of it the better. During this period you must take care that instead of self-reliance the child does not develop assurance.

Lorain—Frederick Doll, 32, pioneer steel man, died Monday.  
Philadelphia—American purchase pitcher Bryan Harris and catcher Glenn Mayatt of Houston (Texas) club.  
Denver—Arrangements are concluded for Jack Britton (fifth bout here Aug. 7).  
Philadelphia—William H. Hogan, local sportswriter, sued Ex-Rickard for \$5000 damages for alleged slander and defamation of character. Rickard, it is declared, said Hogan tried to blackmail him of \$10,000 in connection with the Willard Dempsey fight.  
Philadelphia—Johnny Kilbane, the featherweight champion has a shade better of "Jockey" Fox, featherweight champion of England, in six-round bout.

**Every Day Etiquette**  
"How can I avoid two of my school friends whom I do not care for? They are always insisting upon my joining them at plays or waking?" asked Gladys. Refuse once in a while to join them on the plea that you are busy or that you are going with someone else. They will soon take the hint," replied her sister.

**Daily Care of Plants.**  
Window plants collect dust easily and so should be carefully dusted. If necessary, before watering so that they will get the benefit of the water and look really green and healthy. A palm, begonia or any woody plant may be dusted with a very soft bristle brush. The roots of plants must be thoroughly soaked. All plants do better if repotted once a year so as to allow any necessary root expansion. Ferns must often be divided to prevent crowding. No plant should be placed in a crowded position in a room either against another plant or furniture if it is to look and do well. Neither must it be set in a place where it will get even the slightest knocking, for ferns especially have delicate fronds that are sensitive to a mere touch.
